

Airai View Hotel & Spa

For almost 2 years the Airai View Spa, located at the Airai View Hotel, has offered and specialized in Balinese Traditional massages among other treatments to choose from in their **Gardenia Aromatherapy** and **Airai Touch** menus.

The most popular among guests and what would be considered as the Spa's unique touch would be the Balinese Traditional massage. This unique technique requires less essential oils and firm strokes from an experienced Balinese masseuse to assure you that your treatment will be the recipe used and passed down from generations to generations.

Adding a final touch to your Balinese massage experience with a rejuvenation to your sensory organs by aromatherapy consisting of scented oils, the cleansing of your skin and pores with scrub remedies made up of powdered fruits, spices and herbs and finally local fruits to regenerate and stimulate blood flow in your body.

Currently, with only one room available for massages, Acting Manager Syardi Rusian confirms that after the hotel's four month renovation period, Airai View Spa will have 3 additional Ocean View Spa rooms, with a Jacuzzi to accentuate their spa treatment services.

Mandara Spa Palau Royal Resort

On October 15, 2005, Mandara Spa at the Palau Royal Resort officially opened its unique spa services such as the Balinese Specialty, Acupressure, Swedish Massage, and of course,

the Mandara Spa Massages. Mandara Spa is a global development and management company, with more than 70 spas under contract operating mostly within hotels, resorts, and cruise ships.

Mandara Spa offers are not to be missed and never to be forgotten. The signature treatment is performed by two therapists working together giving a unique blend of five different massage styles. The ingredients, spices and herbs used in massage sessions are imported from Bali, Indonesia. Your visit will be greeted with a refreshing cup of ginger tea and aromatherapy refresher towel, both said to increase blood flow to your body and prepare for your massage therapy.

The Spa boasts five (5) rooms; two singles and three couples, each with your own view of the clear ocean and overlooking the Malakal Rock Islands. Each room has its own ambience, a blend of Balinese music as well as the aroma of lemongrass essential oil. All therapists undergo rigorous training and assessment at an exclusive Mandara Spa training school before they are introduced into the Spa environment. The training encompasses therapist technique, customer service, and product knowledge. The trained therapists want each customer to experience the beauty and allure of Asian traditions with the sophistication of a modern spa experience.

the sea to the shore or the wind blowing through the surrounding tropical forest just outside your villa can calm you as the helpful therapist massage you from your head to toe bringing you to a state of complete relaxation.

Mandara Spa, founded in Bali in 1995, now operates more than 75 spas worldwide in hotels, resorts and cruise ship with an addition of the two new branches operating in Palau. Mandara Spa is owned by Steiner Leisure Ltd.
